Litmus A Freeman
www.projectfreeman.com

That's not my NAME,
I'm not your slave
I live by the moral law and that's how I'll behave
With love and respect,
For my fellow man,
Now I remind those of your kind your statutes never can

Control the freeborn with their rules and their demands
For I will not stand under what I do not understand

'Cause I'm a freeman, on the land
And I'm doing, everything I can

Though I may travel,
By the sea
I will not pour its contract law, your power over me
I want no part,
Of your society
You're over ruled us freeborn fooled are finally breaking free

My birth was registered but my parents never meant
For me to work my life for you and I do not consent

'Cause I'm a freeman, on the land
And I'm doing, everything I can
To be a freeman, on the land

Your phonie money,
Your twisted tongues,
The corporate corruption of your cities fills my lungs
I see through your fiction,
Your Roman "law"
Now I'm wise, you capitalize so you can tax the poor

Submission, application, registration's not for me
'Cause the planet is my country, & through all your dogma I can see

'Cause I'm a freeman, on the land
And I'm doing, everything I can
To be a freeman, on the land
