[Litmus A Freeman](#)

|   |              |                       |             |               |                        |              |   |
|---|--------------|-----------------------|-------------|---------------|------------------------|--------------|---|
| <b>G6/9</b>                                     | <b>Asus2</b> | <b>Em2</b>            | <b>G6/9</b> | <b>Asus2</b>  | <b>Em2</b>             | /            |   |
| There's nothing normal                          |              | about this            |             |               |                        |              |   |
| <b>Em</b>                                       | /            | <b>Asus2</b>          | /           | <b>Cmaj7</b>  | <b>Bm7</b>             | <b>Em</b>    | / |
| They're telling us that we're all under threat, |              |                       |             | and lucky     | if we're not in -      | fected yet   |   |
| We have to stay at home or                      |              | more will die,        |             | but those who | tell us this are       | prone to lie |   |
| <b>Em2</b>                                      | /            | <b>Am2</b>            | /           | <b>Cmaj7</b>  | <b>Bm7</b>             | <b>Em</b>    | / |
| We have to keep our distance                    |              | from the rest,        |             | unless we     | pass their man-made    | virus test   |   |
| We mustn't touch or share a                     |              | kiss or hug,          |             | and all wear  | masks to keep a-way    | the bug      |   |
| <b>Cmaj7</b>                                    | <b>D6/11</b> | <b>Em</b>             | /           | <b>Cmaj7</b>  | <b>D6/11</b>           | <b>Em</b>    | / |
| But their covert cult of crime                  |              | collapsed the towers, |             | to fuck our   | freedoms and in-crease | their powers |   |
| Now this propaganda play is a                   |              | Game of Drones,       |             | enforced by   | psychopaths be-hind    | their clones |   |

## Chorus:

|                        |              |             |                        |              |             |   |
|------------------------|--------------|-------------|------------------------|--------------|-------------|---|
| <b>G6/9</b>            | <b>Asus2</b> | <b>Em2</b>  | <b>G6/9</b>            | <b>Asus2</b> | <b>Em2</b>  |   |
| There's nothing normal |              | about this! | There's nothing normal |              | about this! |   |
| There's nothing normal |              | about this! | /                      | /            | /           | / |

|                                      |              |                     |   |                           |                          |           |   |
|--------------------------------------|--------------|---------------------|---|---------------------------|--------------------------|-----------|---|
| <b>Em</b>                            | /            | <b>Asus2</b>        | / | <b>Cmaj7</b>              | <b>Bm7</b>               | <b>Em</b> | / |
| They've closed the borders & they've |              | closed our minds,   |   | put the shutters up and   | pulled the blinds        |           |   |
| They fake the numbers and they       |              | ensor science,      |   | demand obedience and      | full compliance          |           |   |
| <b>Em2</b>                           | /            | <b>Am2</b>          | / | <b>Cmaj7</b>              | <b>Bm7</b>               | <b>Em</b> | / |
| We mustn't give in to their          |              | hidden fear,        |   | glued to 'Netflix' whilst | our rights all disappear |           |   |
| It's through this fear they've       |              | made us all comply, |   | with our imprisonment     | now don't you wonder     | why?      |   |
| <b>Cmaj7</b>                         | <b>D6/11</b> | <b>Em</b>           | / | <b>Cmaj7</b>              | <b>D6/11</b>             | <b>Em</b> | / |
| But I'm not the only one who         |              | smells a rat,       |   | cos they've always lied   | to us I'm sure of that!  |           |   |
| So I'm sus-picious that this         |              | virus farce,        |   | is just the Gates-way     | to the vaccination pass  |           |   |

## Repeat Chorus

|                             |              |                    |   |                       |                      |           |   |
|-----------------------------|--------------|--------------------|---|-----------------------|----------------------|-----------|---|
| <b>Em</b>                   | /            | <b>Asus2</b>       | / | <b>Cmaj7</b>          | <b>Bm7</b>           | <b>Em</b> | / |
| But we're of Nature and the |              | dark we shun,      |   | we need to breath the | air and feel the Sun |           |   |
| The world is still the same |              | out-side the door, |   | they just want it for | themselves and us no | more      |   |
| <b>Em2</b>                  | /            | <b>Am2</b>         | / | <b>Cmaj7</b>          | <b>Bm7</b>           | <b>Em</b> | / |
| So do no harm but           |              | take no shit,      |   | or we'll re-main up   | to our eyes in it!   |           |   |
| See the truth and open      |              | up your mind,      |   | leave the dark behind | be-fore we all go    | blind     |   |
| <b>Cmaj7</b>                | <b>D6/11</b> | <b>Em</b>          | / | <b>Cmaj7</b>          | <b>D6/11</b>         | <b>Em</b> | / |
| So this "New Normal" we     |              | must all resist,   |   | and in de-fiance      | raise a passive fist |           |   |
| Step out-side and walk      |              | in-to the light,   |   | it's for our freedoms | and our rights we    | fight     |   |

|                       |              |           |   |               |              |           |   |
|-----------------------|--------------|-----------|---|---------------|--------------|-----------|---|
| <b>Cmaj7</b>          | <b>D6/11</b> | <b>Em</b> | / | <b>Cmaj7</b>  | <b>D6/11</b> | <b>Em</b> | / |
| Now say "I... do not, |              | com - ply |   | "I... do not, |              | com - ply |   |
| "I... do not,         |              | com - ply |   | "I... do not, |              | com - ply |   |

|                        |              |               |
|------------------------|--------------|---------------|
| <b>G6/9</b>            | <b>Asus2</b> | <b>Em2</b>    |
| There's nothing normal |              | about this... |
